

To FCC,                      In regards to the National Association of Broadcasters petition #04-160 to stop the broadcast of important information of weather and traffic by XM Radio, I respectfully request that you deny such petitions. I pay for the ability to listen to a variety of programs that are not readily available using normal radio broadcasts. I feel that if you stop XM Radio from informing me of important notices of traffic or weather changes my job as a long-haul truck driver could become more dangerous.

                    Please don't allow commercial interests to affect my job and safety more than they already are.

Thank you,      Raymond Shaffer
